

Global Transportation Management

RedPrairie offers the industry's broadest integrated transportation solution.

By automating transportation processes, connecting supply chain partners and bringing better visibility to order fulfillment activities it provides you with the ability to substantially reduce cost while offering better service to your customers. Only RedPrairie offers the ability to continuously optimize all transport variables (COPLEX®) in order to improve efficiency and lower cost across your global supply network.

- SQL Server / Oracle / DB2

Case Study: Fortune 100 Building Products Manufacturer

Challenges

- Consolidating multiple shipment locations to leverage volume and staff
- Creating a core carrier program
- Reduce overall transportation spend
- Improve transportation reporting metrics

Solutions

- Centralized control center
- Transportation management system
- Carrier for web-based carrier communications

Benefits

- Reduced transportation staff by 25%
- Reduced transportation spend 4.2% in the first year
- Reduced carriers from 310 to 168
- Achieved a 4.3% improvement in network service levels

“RedPrairie’s optimization tool allows us to make decisions faster and gives us more control over our work. It’s also enabled us to centralize our planning and standardize our business practices. This has resulted in improved competitive positioning and increased customer satisfaction. The system is worth millions to us.”

Paul Snider,
Director of Transportation and Commercial Customer Logistics,
Georgia Pacific

TRANSPORTATION MANAGEMENT BENEFITS
